Adding NetApp Support Site accounts to Cloud Manager 1

Adding NetApp Support Site accounts to Cloud Manager

Adding your NetApp Support Site account to Cloud Manager is required to deploy a node-based BYOL system or to enter the serial number for a capacity-based license. It's also required to register pay-as-you-go systems and to upgrade ONTAP software.

Steps

1. If you don't have a NetApp Support Site account yet, [register for one](#).
2. In the upper right of the Cloud Manager console, click the Help icon, and select **Support**.
3. Click **NSS Management > Add NSS Account**.
4. Enter the user name and password for your account.
 - The account must be a customer-level account (not a guest or temp account).
 - If you plan to deploy a node-based BYOL system:
 - The account must be authorized to access the serial numbers of the BYOL systems.
 - If you purchased a secure BYOL subscription, then a secure NSS account is required.
5. Click **Register**.

What's next?

Users can now select the account when creating new Cloud Volumes ONTAP systems and when registering existing systems.

- [Launching Cloud Volumes ONTAP in AWS](#)
- [Launching Cloud Volumes ONTAP in Azure](#)
- [Registering pay-as-you-go systems](#)
- [Learn how Cloud Manager manages license files](#)
